

CECS65DT Contractor Edition

6.5" 2-Way, In-Ceiling, Coaxial, Infinite Baffle,
Dual Input Stereo, Single Loudspeaker

The easy to install CECS65DT is a full-range stereo ceiling loudspeaker in one single speaker package. It incorporates a dual voice coil talc filled polypropylene woofer with a butyl rubber surround and two silk dome Ferrofluid cooled tweeters. It is the perfect application for bathrooms, hallways and small areas where aesthetics and high fidelity sound are vital and a pair of speakers is not practical.

This revolutionary combination provides superior and more natural sound for both foreground and background applications. The Infinite Baffle design makes it the ideal choice for typical applications in open beam attic or enclosed ceilings.

For efficiency and consistency the CECS65DT is timbre matched to the CECS Series of speakers.

The speaker color is white, and is a close match to Frazee White Shadow 181. It can be painted to match any decor. The grill is a powder coated aluminum design.

Four built-in expanding transverse dog leg clamps permit installation with or without pre-wire construction brackets in drywall or material with thickness of 5/16" to 1 1/2".

Electrical connection, up to 12 gauge wire, is made by standard constant tension red/black spring-loaded terminals.

With our limited 5 year warranty you are assured years of superior trouble free operation.

SPECIFICATIONS

Driver	6.5" Talc Filled Polypropylene Cone with Butyl Rubber Surround
Tweeter	Pivoting 5/8" (16mm) Polycarbonate Ferrofluid Cooled Dome
Crossover	Actual crossover network
Grill specification	Perforated Aluminum with Scrim Cloth
Frequency Response	55Hz - 19.5kHz
Impedance (nominal)	8 ohms
Power Handling	5 - 55 Watts
SPL	88 dB 1W/1m
Diameter x Depth	8 15/16" (227mm) x 2 13/16" (72mm)
Retrofit Cutout Diameter	7 7/8" (200mm)
Standard Pack Dimensions (weight)	11 1/2" x 9 1/4" x 11 5/8" (7lbs)
Master Pack Dimensions (weight)	19 1/4" x 12 1/2" x 12 5/8" (16lbs)
